Additional rule here is #11.

## Grid Acceptable Use Policy

By registering as a Grid user you shall be deemed to accept these conditions of use:

1. *You shall only use the Grid to perform work, or transmit or store data consistent with the stated goals and policies and conditions of use as defined by the body or bodies granting you access.*
2. *You shall not use the Grid for any unlawful purpose and not (attempt to) breach or circumvent any Grid administrative or security controls.*
3. *You shall respect intellectual property and confidentiality agreements.*
4. *You shall protect your access credentials (e.g. private keys or passwords).*
5. *You shall immediately report any known or suspected security breach or misuse of the Grid or access credentials to the incident reporting locations specified by the Grid and to the relevant credential issuing authorities.*
6. *You must notify the Registrar of any changes to your Registration Information.*
7. *Use of the Grid is at your own risk. There is no guarantee that the Grid will be available at any time or that it will suit any purpose.*
8. *Logged information, including information provided by you for registration purposes, is used for administrative, operational, accounting, monitoring and security purposes only. This information may be disclosed, via secured mechanisms, only for the same purposes and only as far as necessary to other organizations cooperating with the Grid. Although efforts are made to maintain confidentiality, no guarantees are given.*
9. *The access-granting bodies and Resource Providers are entitled to regulate, suspend or terminate your access, within their domain of authority, and you shall immediately comply with their instructions.*
10. *You are liable for the consequences of you violating any of these conditions of use.*
11. *In case that some or parts of these conditions are invalid or impracticable or if they become invalid or impracticable after the contract is signed, the remainder of the conditions is not affected. Only affected conditions may be substituted by conditions which are most close to the intended ones. This also includes incomplete conditions.*
